### Mission:

Our Mission is to be an industry leader through commitment to people, quality, innovation & service while respecting the environment and communities in which we operate.

## Committed Passionate Sustainable

ARAUCO IS AN EQUAL OPPORTUNITY EMPLOYER BUILDING A CAPABLE, COMMITTED, DIVERSE WORKFORCE.

### WHO WE ARE

For more than 45 years, ARAUCO has been driven forward by its vision of being a global leader in sustainable forest products. During this time, we have evolved into one of the major forestry companies in the world, not only for the size and health of our plantation forests, the quality of our products, and superior customer service, but for our technical innovation, environmental responsibility and social commitment as well. The products and services provided by ARAUCO's five business areas embody the company's commitment to sustainable resource management. We combine high technology with production processes that have minimal environmental impact to deliver a broad range of high quality products, meeting the needs of customers in 71 countries.

### OUR COMPOSITE BUSINESS

From New Brunswick, Canada to Eugene, Oregon in the United States, Arauco-NA continues to set new standards in the manufacturing of composite wood panels. With strategic investments in cutting-edge technology, new product development, continual training in a team-based environment, shared goals of constant improvement and customer satisfaction, Arauco-NA continues to provide our customers with the widest selection of composite wood panel products in the industry today.

### WHAT WE OFFER

Arauco-NA has summer intern positions available. The internships can be 3-6 months (depending on each operation and student needs and availability) and will involve hands-on experience, office work and project assignments. When you join our team, you will be provided mentoring, and training and development opportunities to help you chart your path to a fulfilling career.

**QUALIFICATIONS:** Individuals interested in these positions will be working both independently and in a team setting, they should be safety conscious, possess excellent interpersonal and leadership skills, have a strong work ethic with high integrity, possess positive attitude, good time management skills, be creative in problem solving with effective speaking and listening skills, and have an interest in hands-on work in an outdoor environment. In addition, candidates are required to have demonstrated academic achievement with demonstrable skills in computer applications as they relate to their discipline. All positions are in rural locations.

**COMPENSATION:** For completing corresponding year prior to starting assignment: \$14.00/hr,

**IF INTERESTED:** Email a resume and copy of transcripts. Candidates must have a 3.0 GPA or higher. Mechanical, Industrial, Electrical, Environmental Engineering, Wood Sciences, Forestry, or Business majors welcome.

**Business Principles:** Meet Our Responsibilities · Success through People · Pursue Excellence · Focus on the Customer · Maximize Profit · Share Success
