Job Description:

Summary

The coop role provides students with the opportunity to apply academic knowledge and skills in a professional environment and to support/promote the students' career goals through contacts with professionals in their fields of study. The internship experience enables students to participate in professional activities for Volvo Group by working on important and innovative projects. Internships are structured learning experiences where interns and our full time professionals work together on projects within their selected organizations. The coop assignments allow students to integrate knowledge and skills in manners that are mutually beneficial to the students and Volvo Group.
Responsibilities / Main tasks

- Create tool design drawings complete for manufacturing
