

Quality Assurance Technician-01015539

Description

Weyerhaeuser's Elkin facility is seeking a Quality Assurance Technician to join our technical team. The Quality Assurance Technician assesses raw materials, analyzes and interprets data and evaluates performance and reliability of processes and finished products. This position works 12 hour rotating day-shift/night-shift to include weekends, and holidays; overtime wages do apply.

Key Functions:

- Verify product standards are met through physical testing, statistical analysis and process measurements and observations.
- Record testing and inspection results, input into appropriate database or spreadsheets.
- Monitor and document process parameter changes as assigned, identify and lead troubleshooting efforts to eliminate special cause variation.
- Communicate test results and observations to operations and management to maintain process and product conformance.
- Identify and respond to statistical trends or non-conforming process measures and test values.
- Ensure that non-conforming product is appropriately identified and segregated according to standard procedures.
- Assist in process and product tests/trials as assigned and compile, analyze, and report trial test results as required.
- Monitor and record consumption and inventory of raw materials (wax, resin, etc.).
- Ensure preventive and unscheduled maintenance tasks are completed, including cleaning and calibration of processing and testing equipment.

Qualifications

- High School Diploma or GED required; Bachelor's Degree preferred.
- Ability to follow safety and environmental standards and procedures.
- Ability to follow all quality and process standards to operate sample preparation and testing equipment.
- Strong math, statistical and analytical skills with the ability to problem solve.
- Good communication and interpersonal skills.
- Demonstrated ability to operate a variety of material handling equipment (both hand tools and electrical/motorized equipment)
- Demonstrated ability to work while wearing personal protective equipment, which may occasionally include a respirator.
- Ability to work safely around moving manufacturing equipment and machinery.
- Ability to work at heights, climb stairs, lift up to 50 pounds, and work in an environment containing wood dust and extreme heat or cold.
- Must be able to work a 12 hour rotating day-shift/night-shift to include weekends, and holidays.
- Eligible to work in the United States without sponsorship.
- Resume detailing work history and education required for consideration.

Post Application Requirements:

- Successful completion of pre-employment computer based testing
- Successful completion of pre-employment background check, physical, and drug screen
